

We are excited to find and welcome a new member to the AT Physio team to help us meet the needs of our growing customer base. Could that be you?

## Who we're looking for:

We are looking for a **physiotherapist, osteopath, sports therapist** or **sports massage therapist** with musculoskeletal experience and hands-on therapy skills.

We are offering regular hours (8-16 hours a week) on a self-employed basis and would ideally suit a therapist who is keen to increase their private caseload as there will be future opportunities to increase their hours.

## Who we are:

AT Physio is highly reputable physiotherapy practice based in Capel St Mary, which was founded in 2018 by Tom and Amie Leith. Thanks to our excellent reputation in providing hands-on, patient-centred care, we have seen rapid growth in our client base and therefore we are looking for another therapist to join our friendly team. Our practice sees clients of all ages with a variety of different conditions, which makes our days in clinic very interesting and rewarding!

The clinic directors Tom and Amie Leith are both highly experienced physiotherapists with a range of experiences in NHS and private practice and are keen to support the development of the team.

## What you can expect:

- ✓ Great rates of pay on a self-employed basis (starting from 55% of client fees).
- ✓ Flexible working options to suit you, that can include evenings and weekends.
- ✓ Excellent support from a friendly and experienced team.
- ✓ Modern and fully equipped treatment rooms.
- ✓ Large, continually growing customer base with a wide range of ages and conditions.
- ✓ Opportunities to increase private practice caseload.

## You must be someone who:

- ✓ Has excellent people skills and customer care, with an understanding of the importance of building rapport and long-lasting customer relationships.
- ✓ Has a passion for providing hands-on care.
- ✓ Is reliable, hardworking and flexible.
- ✓ Is open and responsive to feedback in order to learn and be successful in private practice and to maintain AT Physio's high standards and reputation.

## **Job roles and responsibilities:**

- To provide high-quality musculoskeletal assessments for clients with a range of conditions. To inform clients of their diagnosis and treatment plan, taking into consideration their personal goals.
- To provide hands-on treatments to optimise clients' recovery and help them to achieve any goals they may have. Treatments can include manual therapy, electrotherapy, taping, rehabilitation exercises, advice and any other treatments you may be qualified (e.g. acupuncture, manipulations).
- To ensure clinical notes are accurate and completed in a timely manner. To complete admin tasks associated with patient care such as referrals and letters.
- To be proactive in contacting clients who have not re-booked/cancelled to check they're progress and ensure that they are satisfied with care. To feedback any concerns to Amie or Tom Leith (clinic directors).
- To attend team meetings to keep up to date with the practice updates and learning. To engage and contribute to CPD within the team.

If you are interested or would like to find out more then we would love to hear from you!  
Please send us an email with your CV and why you'd like to be considered to join our team:
